Pro48K Solenoid Activator Kit

Irrigation Diagnostic Tool

CE

ALL-IN ONE TOOL

- Activate Solenoids
- Verify 24Vac Power
- Detect Short/Open Wires
- Chatter Solenoids
- Check Solenoid Continuity
- Identify Wires with Tone/Probe

DESCRIPTION

Pro48K Kit is a portable, low-cost, battery operated diagnostic irrigation tool.

It combines several testers into one, creating a powerful tool that any irrigation specialist can afford. Incorporating solenoid activator to hold valves open / chatterer to aid locating, lost or buried solenoids / continuity checker to identify cut or shorted wires (or solenoids) / 24Vac detector to ensure proper clock power output.

Together with the ID Probe, the Pro48K can transmit a tracing tone for identifying wires, non-contact, using tone/probe methods. Operation is simple as LEDs indicate tests and conditions.

Kit is kept in a handy carry case and is a workhorse product for any irrigation professional.

SPECIFICATIONS

Pro48K
Power Requirements: Two 9V Alkaline Batteries
Battery Life: 3 hours continuous
Voltage Output: 36Vdc peak
Voltage Protection: 28Vac
Warranty: 12 Months

ID Probe
Powerful Speaker/One-button operation/Adjustable Volume Control/Headset Connection/
9V Alkaline Battery

Also Available

SS2002 - Solenoid Seeker
Pro300 - Residential Solenoid Locator
Pro800D - Hi-Power Wire & Solenoid Locator
Pro871C - Pipe & Cable Locator
GFL3000 - Ground Fault Locator
Pro400 - Graphical TDR Cable Fault Locator
Pro1000 - Divining Rod
